This 12-bed facility is set up to accommodate up to twelve individuals who are homeless and have co-occurring disabilities such as mental illness and/or substance abuse as well as legal issues.

This program provides individuals a safe, therapeutic and regimented transitional environment that promotes independence and recovery that guarantees dignity of self and others, teaches the value of hard work and self-discipline, and assists persons in developing useful skills through a broad needs-based step process.

The P.H.A.S.E. program will collaborate with existing community agencies and resources that provide mental health treatment, family therapy, education, job skills training, life skills training, recovery meetings and socialization to ensure that you, the resident, have the best possible chance for maintaining abstinence, treating mental illness and addressing other issues that once were obstacles.

Stone Harbor prepares the participant for positive reintegration into the community.

1. Must be homeless.
2. Must be diagnosed with a mental illness/disorder and actively receiving mental health treatment (current psychological evaluation required).
3. Must be 18 years of age or older, or an emancipated minor.
4. Must have an open case with the Base Service Unit.
5. Must participate in a “program”; day partial, employment, volunteer work, BCRC/Aurora, etc.
6. If consumer is also diagnosed with substance abuse, must be in a drug/alcohol treatment program (i.e. AA/NA meetings, D/A counseling group) or have completed a D/A program and be clean.
7. Must agree to a criminal history check for housing purposes.
8. Must not display any life threatening or community damaging behaviors at the time of referral.
9. Stone Harbor director will determine if consumer is appropriate for services. Placement will be determined according to need and there is a possibility that a referral will be put on a waiting list.

Referrals are made directly to the Stone Harbor Program by the referring agencies. Once a release is signed, the staff will make the necessary contact/s to set up the initial face-to-face interview with the potential resident.

This interview session is designed to get to know the potential resident and assess their needs, as well as explain program regulations.

If the resident is accepted into the program, arrangements will be made to pick the resident up from their current residence. After picking up the resident, he/she will be taken directly to the Public Welfare office, Social Security Office, Probation etc. From there, the new resident will arrive at Stone Harbor.

While residing at Stone Harbor, consumers will be actively involved in all programs and activities designated to further recovery and life skills management. Residents must also abide by the terms of the Service Agreement and follow up on all avenues for treatment.
MISSION STATEMENT

The Stone Harbor program provides homeless individuals with co-occurring disabilities such as mental illness and/or substance abuse and/or legal issues a safe, therapeutic, regimented, transitional environment that promotes independence and recovery that guarantees dignity of self and others, teaches the value of hard work and self discipline, and assists persons in developing useful skills through a broad needs based “phase” program (if applicable). Stone Harbor prepares the participant for positive reintegration into the community.
